

Important: Brady Workstation Licensing Change

Changes to delivery and licences

Effective Date: 21st August 2019

Obsolete Suites: Product ID Suite/ Wire ID Suite/Asset Tracking Suite

The Product ID Suite, Wire ID Suite and Asset Tracking Suite will be removed from the offer.

When a customer merely wants to do **product identification** labelling, they will only have to buy the **Custom Designer app**, as it will be combined with the free apps and advanced sequence, advanced import and flip flop. Hence, customer buying Custom Designer will receive all the apps which were included in the Product ID Suite in the past.

When a customer merely wants to do **wire identification** labelling, they only have to buy **Text Labels app** as it will be combined with the free apps and advanced sequence, advanced import and flip flop. Hence, customer buying Text Labels will receive all the apps which were included in the Wire ID Suite in the past.

The Asset Tracking Suite will be merged into the Product & Wire ID Suite. The Asset Tag app will remain available separately.

Obsolete Tools / Apps: Advanced Sequence, Advanced Import, Flip flop

The labelling tools, Advanced Import & Sequence and Flip Flop will no longer be available as a separate apps/tools.

Updated Product & Wire ID Suite

The Product & Wire ID Suite will also contain the Asset Tag, Patch Panel & Terminal Block apps, making it an excellent fit for our electronics and panel builder customers.
