Brady Workstation EPLAN integration

Data Automation now links with EPLAN Smart Production

All relevant information can now be printed straight out of the EPLAN electrical cabinet design environment with a BRADY printer. Thanks to the connection between Brady Workstation Data Automation and EPLAN Smart Production data streams are seamlessly digitalised.
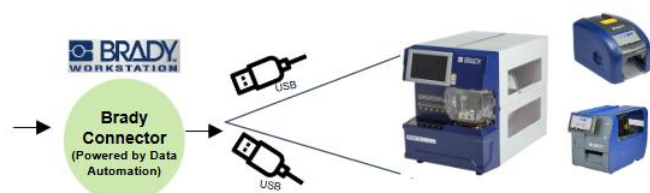

Who is EPLAN?

EPLAN provides software and service solutions in the fields of electrical, automation and mechatronic engineering. The company develops one of the world's leading design software solutions for machine and panel builders.

The EPLAN Platform is an engineering software for automation technology and power systems. It brings together software solutions for various engineering disciplines. Using piping and instrumentation diagrams, electrical schematics, detailed evaluations, control cabinet layouts in 3D and machine cabling in 3D, a complete digital twin of the automation systems for machines is created. EPLAN is the standard for electrical engineering, the absolute market leader in its category in Europe and one of the largest globally.

The solution

Our solution includes a standard printer interface that enables users to generate the required labels in a single wire workflow between **EPLAN Smart Production** and **Brady Workstation Data Automation**:

Just set up the channel in Data Automation and start printing from EPLAN.

Advantages

- **Connectivity** - Easily integrate EPLAN Smart Production and Brady Workstation
- **Productivity** - Optimise common customer workflows
- **Ease of Use** - Seamless connectivity between EPLAN Smart Production and Brady Workstation relevant application based information.

Printer compatibility

Easy: any Brady printer with a driver compatible with Data Automation!

We will be adding a multilingual insert to all relevant printer models to promote this capability:

[English]
CONNECT EPLAN TO YOUR BRADY WORKFLOW

Find the Eplan Connector in the Data Automation Suite

Quickly and easily print labels directly from Eplan Smart Production – no more exporting and importing data!

To use, simply select 'IP Address Setup/Eplan' during the channel setup process.

[Español]
CONECTE EPLAN A SU FLUJO DE TRABAJO BRADY

Busque el conector Eplan en el paquete de automatización de datos

Imprima etiquetas de forma rápida y sencilla directamente desde Eplan Smart Production y olvídese de exportar e importar los datos.

Para utilizarlo, basta con seleccionar "Configuración de la dirección IP/Eplan" durante el proceso de configuración del canal.

[Français]
CONNECT-EZ EPLAN À VOTRE FLUX DE TRA-VAIL BRADY

Vous trouverez le connecteur Eplan dans la suite Automatisation des données

Imprimez rapide-ment et facilement des étiquettes di-rectement à partir de Eplan Smart Production. Plus besoin d'exporter et d'importer des données !

Pour l'utiliser, il suffit de sélectionner "Configuration de l'adresse IP/Eplan" lors du processus de configuration des canaux.

[Deutsch]
VERBINDEN SIE EPLAN MIT IHREM BRADY-WORKFLOW

Finden Sie den Eplan-Konnektor in der Suite "Datenautomatisierung"

Drucken Sie Etiketten schnell und einfach direkt über Eplan Smart Production - Daten müssen nicht mehr exportiert und importiert werden!

Zur Verwendung wählen Sie während der Kanaleinrichtung einfach die Option "Einrichtung per IP-Adresse/Eplan".

Timing

It's live!
With the October update of Brady Workstation all Data Automation customers can benefit.
This innovation is one more example of our customer centered drive to deliver solutions that improve processes and alleviate concerns in your customers' daily professional activities.

Should you have further questions, please contact your local Brady Representative.
